

Ceiling -D95 & D180

Ultra-thin waterproof ceiling light

莫彩英

Assessor:

Approver:

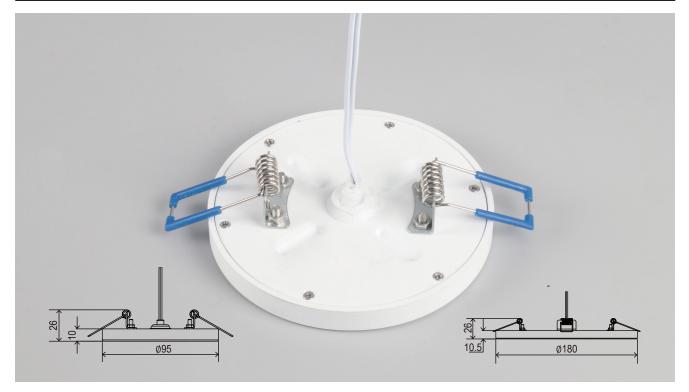

Characteristic:

There are two mounting ways: spring clip mounting and screw mounting. IP65 water proof design. Ultra-thin design, suitable for bath room, ship, furniture, room, ceiling and hanging lighting. Long-life LED lights, more than 50,000 hours +. The light is separated from the power cord and is easy to install, disassemble and replace. A large amount of aluminum provides good heat dissipation for high-power led chips.

Specifications:

D95-LED Profile with LED										
Wattage	Lumens	Ra	CCT(K)	Diameter	Voltage	LED Type	opening hole size			
3.6W	170	>80	3000K	95*10mm	DC12V/24V	SMD-2214-48LED	Screw mounting hole: diameter 30mm Spring Clip mounting hole: diameter 70mm			
3.6W	180	>80	4000K	95*10mm	DC12V/24V	SMD-2214-48LED				
3.6W	175	>80	6500K	95*10mm	DC12V/24V	SMD-2214-48LED				

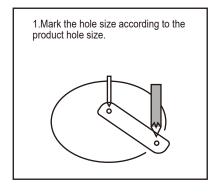

D180-LED Profile with LED										
Wattage	Lumens	Ra	CCT(K)	Diameter	Voltage	LED Type	opening hole size			
9.6W	410	>80	3000K	180*10.5mm	DC12V/24V	SMD-2214-96LED	Screw mounting hole: diameter 30mm Spring Clip mounting hole: diameter 70mm			
9.6W	430	>80	4000K	180*10.5mm	DC12V/24V	SMD-2214-96LED				
9.6W	420	>80	6500K	180*10.5mm	DC12V/24V	SMD-2214-96LED				

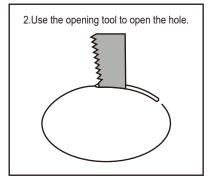

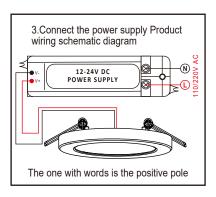

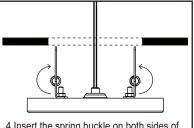

Installation steps:

1.Steps for installing spring clips

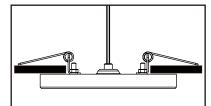

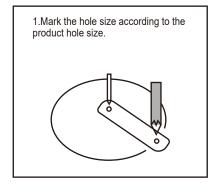

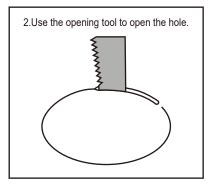

4.Insert the spring buckle on both sides of the product vertically into the ceiling behind the opening. Please confirm whether the opening size of the light can fit.

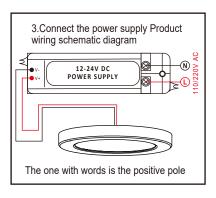

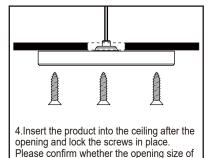

5.After confirming the size of the opening hole and the correct wiring, put down the spring ports on both sides of the product. Before putting down, please confirm whether the installation is stable.

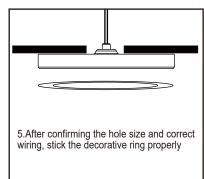

2. Steps for installing Screws

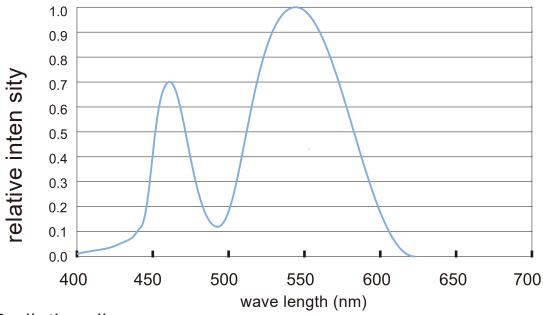

Note: When connecting the cable, read the label on the cable.

the light can fit.
